# Eolias, by Antonio Citterio

Eolias Collection by Antonio Citterio, inspired by the breathtaking archipelago located off the coast of Sicily. This versatile collection includes a range of indoor and outdoor furniture pieces designed to elevate any space.

One of the collection's highlights is the Eolias Salinas series, which features a chair, club chair, and club lounge chair made from sturdy aluminum with a woven wicker detail. These pieces come in both indoor and outdoor versions, with the indoor chairs available with or without wheels for added convenience.

# Plumon, by Patricia Urquiola

Inspired by the concept of dressing and undressing furniture, this collection features elegant and versatile pieces that add sophistication to any living space.

Our stackable teak chair with two cushion options offers both comfort and versatility, perfect for outdoor settings. The new Club armchair, a stylish and versatile chair, the perfect blend of form and function, adding sophistication to any space.

The ceramic side table with Glaze finish adds a unique touch to your living space, available in a range of colors

to suit any style. Meanwhile, the central ceramic table is a true statement piece, also available in Glaze colors, with a striking design and eye-catching finish.

Each piece in the Plumon collection embodies the perfect fusion of form and function, with exquisite attention to detail and premium materials. Whether you're looking to create a stylish outdoor oasis or elevate your indoor living space, the Plumon collection has something for everyone.

# Grand Bitta, by Rodolfo Dordoni

Crafted from a blend of ropes, teak, and aluminum, this stunning piece is fully customizable with a range of rope and fabric colors to suit your style. Designed with outdoor lounging in mind, the Daybed's generous size and comfortable design make it the perfect addition to any patio or poolside. Enjoy luxurious relaxation in style with the Grand Bitta Daybed.

The Grand Bitta collection features a unique combination of aluminum and teak legs, seats made

of braided polyester, and comfortable cushions, with teak or stone table tops, all crafted from waterproof materials. The designer's intention was to create a dense braiding that would allow air to flow through, evocative of the braiding used to moor boats (hence the name "Bitta," which means "mooring" in Italian). The result is a collection of pieces that appear light and airy, while also providing cozy, natural-hued nests to unwind in.

# Pavilion H

Experience the ultimate in outdoor living with the Outdoor Pavilion H - the fully configurable pergola that's taking the market by storm. With a range of new components that are sure to impress, including a new bioclimatic roof with cutting-edge technology and a sleek, redesigned shape, a waterproof aluminum roof, a polycarbonate roof, new canopies with slats, stylish louvers, new aluwood carpentry, and a glazed side, this pavilion is the perfect way to create a customized outdoor oasis that's uniquely yours. But that's not all - the Outdoor H Pavilion is now smart home compatible, which means you can control everything from the lights to the fan with the Kode

app. And with the ability to configure your pavilion to your exact specifications, you can create the perfect outdoor space for relaxing, entertaining, or anything in between.

Whether you're looking to create an intimate outdoor retreat or a spacious entertainment area, the Outdoor H Pavilion has everything you need to make your vision a reality. So why wait? Upgrade your outdoor living space today with the ultimate in customizable outdoor living - the Outdoor H Pavilion.

# New Bioclimatic ceiling

New bioclimatic roof system for H Pavilions that boasts a quieter operation and sleek new design. The roof features adjustable blades for optimal ventilation and light control, as well as an automatic rain sensor. The hidden motor not only enhances the overall aesthetic of the pavilion, but also reduces noise pollution for

a more tranquil outdoor living experience. This new bioclimatic roof system is a modern addition to Kettal's line of outdoor furniture, offering a minimalist look and functional benefits to users who seek a cleaner and more sophisticated outdoor living space.

Pavilion H

A bioclimatic roof uses natural elements to regulate temperature and energy efficiency. A silent and clean design reduces noise pollution and provides a modern aesthetic appeal. An eco-conscious choice for sustainable living.

# New Aluminium ceiling

The new watertight aluminum fixed roof for H pavilions in a wood-like finish is a stunning addition to any outdoor venue. Made from high-quality aluminum, this roof provides superior protection against water damage and weather elements, while its wood-like finish adds a touch of natural beauty.

The wood-like finish of the roof is achieved through a unique painting process that simulates the appearance of wood. This finish adds a warm and rustic feel to the pavilion, making it a perfect fit for outdoor events in natural settings.

Installation is quick and easy, with minimal disruption to the event schedule. The roof can be installed in a matter

of days, providing immediate protection from heavy rains and other extreme weather conditions.

In addition to its practicality and aesthetic appeal, the aluminum fixed roof is also environmentally friendly. The use of aluminum reduces the need for natural resources and the roof can be recycled at the end of its lifespan.

Overall, the new watertight aluminum fixed roof in a wood-like finish for H pavilions is an excellent investment for event venues looking to enhance the protection and beauty of their space while also prioritizing sustainability.

New aluminium Glaze Wall and ceiling

# Polycarbonate ceiling

The Pavilion H has just been equipped with an exceptional new feature - a watertight polycarbonate roof that boasts a unique curved design to ensure effective drainage through the columns. This new addition not only serves a practical purpose, but it is also visually stunning, allowing natural light to penetrate the space below.

The transparent material used in the construction of this roof allows for a seamless integration with the surrounding environment, adding to the Pavilion H's already impressive aesthetic. Guests can now enjoy uninterrupted views of the sky above, while remaining comfortably sheltered from the elements.

The innovative design of this roof also provides an extra layer of insulation, making the Pavilion H more energy-efficient and sustainable than ever before. Whether it's a sunny summer day or a rainy winter afternoon, this new feature ensures that guests can continue to enjoy the Pavilion H's offerings no matter the weather.

In short, the Pavilion H's new watertight polycarbonate roof with a unique curved design is a game changer, allowing for maximum functionality, aesthetics, and sustainability. It is an exciting addition to the Pavilion H, sure to leave a lasting impression on all who visit.

# Kode

Kode turns your pavilion into a smart home that you can control from miles away or from your sofa: Adjust the ceiling opening, control the lights, temperature and ventilation, and you can even open and close the blinds. Pavilion H is now a connected smart Pavilion.

Kode app was designed with the goal of bringing mobility and intelligence into one parallel action. With it, Kettal's Pavilion H users can now control and master the various functionalities at various distances from their Pavilion H via their cell phones. Inspired by the rationalism of German industrial designer Dieter Rams, Kode is a minimalist home automation app. Its discrete concept in analogy to a remote control, is designed with slim and elegant action elements, with functionalities basic to the proper use of the Pavilion and other elements. Kode app is a new Kettal app, uniting technology, architecture and design in one.

# A, by Naoto Fukasawa

Chairs and desks made of solid wood are not very common in the office environment. The concept of working places integrating home and office made a change, and I think it became more like that. The touch of our hands and bodies with the wood means coexisting with trees and getting closer to nature. It means living together.

Wooden round bars do not cast strong line shadows in the space. It is beautiful and warm, in harmony with air, light, and people.

# Accesories A system

## Lamp

Add a touch of style and functionality to your System A desk with our sleek ceramic lamp. This versatile lamp can be easily moved from side to side, providing customizable lighting to meet your needs. The dimmable feature allows you to adjust the brightness to your liking, while the ceramic material gives it a modern and sophisticated look. In addition, the lamp features a convenient tray for storing small desk accessories like clips and other items. Available in both black and white, this elegant lamp is the perfect addition to any workspace.

# Kall, by Kettal Studio

Introducing the Kall Collection - a modern solution for private and comfortable conversations. We believe that a phonebooth should simply be the door of a meeting room, which is why we have made the glass door the protagonist, and the space of the “Phonebooth” corresponds to the projection of this door, making it appear embedded against the wall when viewed frontally. Our design ensures minimalism and functionality without any unnecessary frills.

Privacy is a key aspect, and we understand that users need a discreet environment for confidential meetings. Our small side walls provide structural support while also maintaining privacy for documents, device screens, and even facial expressions during a conversation. The addition of a translucent curtain further enhances the sense of protection against prying eyes.

We understand that a phonebooth should not be a cold space, so we have created a warm and inviting environment. Our design provides a pleasant atmosphere, making it closer to a meeting room or a home room rather than a typical elevator cabin.

Technology is an essential component, and we have ensured that the technology is intuitive and user-friendly. Everything is controlled electronically, with scene creation systems, table height regulation, ventilation control, and connectivity all intentionally hidden. Our interaction controls simulate the controls of old HIFI equipment, emphasizing that this booth is a simple and pleasant space where users can provide the main technology using their own devices. For tech-savvy users, we also offer a touchscreen control system.

The Kall Phonebooth family consists of various sizes. The “S” is the basic and standard size. The “M” is 30cm wider, allowing for a swivel armchair, similar to a lounge room, with a relaxed work posture. We also offer an “L” version for two people and a “XL” for 4. All of our phonebooths are modular, which means they can be combined to create special configurations according to the situation.

# Pavilion O, by Kettal Studio

The Pavilion O is a versatile and elegant structure that can be used in a variety of indoor settings, including offices, conference rooms, lobbies, and other commercial or public spaces. It can be used as a standalone structure or as part of a larger design scheme, and its modern aesthetic and high-quality materials make it a perfect fit for contemporary or minimalist interiors.

Designed to provide an elegant and functional space for a variety of purposes, the Pavilion O is a unique and eye-catching structure that combines the natural beauty of wood with the sleekness of curved glass and the durability of PET materials. Its side panels and shelf provide additional functionality and storage space,

while the optional sideboard adds even more versatility and customization options.

The lighting system is designed to complement the Pavilion O's modern aesthetic, with sleek and minimalist fixtures that blend seamlessly into the structure's design. With dimmable LED lights, you can adjust the brightness to your liking and create a warm and inviting atmosphere for meetings, events, or other gatherings.

Whether used as a private workspace, a meeting area, or a stylish addition to an office or public space, the Pavilion O is a beautiful and practical structure that adds value and elegance to any indoor environment.
