## SHADOWS COLLECTION

DESIGN ISABELLA SODI

The Shadows collection reinterprets three different ancient knotting techniques of oriental craftsmen in a modern key. The collection includes all the colors and suggestions from the natural world, merged into a sophisticated balance. Colors are never “gaudy” but barely whispered: clear and opalescent in the brilliance of silk, bamboo and soy; with the depth conveyed by a matt finish on wool; naturally imperfect in undyed wools and intentionally imperfect in the handcrafted abrash effect. Colors, which are chosen with a highly personal approach, center on slight nuances that vibrate amidst the sheen of silk and the “dusty” finish of wool and linen. In this blend of fibers and weaves, the artful touches of slight imperfections are expertly measured to create carpets that also enhance the allure of instinct and skilled craftsmanship.

Designed by Isabella Sodi, the collection includes four carpets made of wool and silk that seem to brighten and darken depending on the direction of the carpet’s main fiber twist. The manual production process enriches the collection with reflections and tones that enliven its apparent simplicity.

## ISABELLA SODI BIOGRAPHY

Florence native Isabella Sodi began her extensive career in the fields of fashion and design as an interior designer for exhibitions, homes, and shops. She moved to Milan to focus on fashion design and then to Rome, where she worked passionately on haute couture. She has since returned to Milan, where she now lives, and is much appreciated in the field of furnishings and interiors.

## COLLEZIONE SHADOWS

DESIGN ISABELLA SODI

*La collezione Shadows, utilizza le diverse antiche tecniche di annodamento degli artigiani orientali per creare dei tappeti monocromatici risolutamente contemporanei. Disegnata da Isabella Sodi, la collezione si compone di diversi tappeti, realizzati in lana e seta, capaci di illuminarsi e scurirsi, a seconda del verso della fibra di lettura del tappeto. La collezione, grazie al procedimento di realizzazione artigianale, s’impresiosisce di riflessi e toni che ne animano la semplicità apparente, sottolineando la ricercata sofisticatezza di ogni singolo pezzo. La collezione, disponibile in diverse tonalità monocromatiche, è in grado di adattarsi perfettamente sia agli ambienti più classici che a quelli più contemporanei grazie alla monocromia dei pezzi arricchita dalle lucenti nuances della seta.*
