

Designed by Francesc Rifé, MAY chairs stand out for their versatile, essential and elegant design. The chairs are available with upholstered or wooden seats and backrests and can be produced in a multitude of finishes and colours to combine with the most diverse contexts and projects.

DESIGNER: Francesc Rifé

The INCLASS design studio started its activity in 2005 with the aim of embedding and driving design in different areas of the company. Today the studio is made up of a cross-functional team which incorporates product designers, graphic designers, engineers and prototype technicians. Since then it has undertaken the overall design of numerous products and has developed the proposals of top external designers who usually work with our firm. The studio strives to ensure that INCLASS designs have a contemporary look, that at the same time are balanced, pure, elegant and timeless with a view to introducing collections that are always innovative, attractive and modern.

UPHOLSTERED SEATS & BACKRESTS

The inner seats and backrests are made of bentwood covered with high density and resilience polyurethane foam.

Upholstery: Available in any of the leathers or fabrics of the INCLASS swatch cards and also with fabrics supplied or specified by the customer.

WOODEN SEATS & BACKRESTS

The wooden seats and backrest have a concave shape and are made of bentwood. They are available in different veneers and finishes.
