

GT1000 / GT1500

Santa & Cole Team, 2011

Pendant lamps

These are two immensely huge ribbon shade lamps conceived for large-scale projects. Inside, they both incorporate a large cylinder disc made from see-through material which houses the powerful dimmable light source.

Ever since the early 1990s, Santa & Cole has championed the use of ribbon shades to embellish all manner of light sources, exploring textiles and experimenting with colours and tones (they even enlisted the help of Raw Color studio). The GT5 was the first in the collection arising as an alternative to the use of continuous textile, methacrylate and cardboard shades. It was followed by the GT6 and, later on, the larger GT7, GT1000 and GT1500, designed for use in public venues owing to their large dimensions. This is a colourful family that is able to change its scale without losing its essence.

GENERAL DESCRIPTION

Polyethylene circular white opal electric structure.
Black metallic circular canopy.
Lampshade: upper Ø 90 cm / 35.4" x lower Ø 100 cm / 39.3" x h. 44 cm / 17.3".
Lower disk in white translucent PVC: Ø 83 cm. / 32.7".
Electric cable length: 8 m / 315"
Suitable for Junction Box (UL market).

Shade available in 6 finishes:

LIGHT SOURCE

Light source included (dimmable):	Built-in LED.
Module of LEDs	3 light output intensities.
Power system: 40 W	Suitable for Phase Cut dimming systems. (External dimmer switch not included).
Operating current: 1.050 mA	Energy efficiency class (E.E.C):
T ^a Colour : 3.000 K	A++... A.
Typical CRI: 80	Suitable only for indoor use.
Lifetime: 40.000 h	Always use this light source.

Input voltaje: 120 ~ 277 Vac.
(50 Hz / 60 Hz). According to destination.

APPROXIMATE WEIGHT (unpacked)

(A) GT1000: 12 Kg / 26.5 lb

(B) GT1500: 17 Kg / 37.5 lb
