

# Cirio Múltiple

Antoni Arola, 2010

Pendant lamps

The dancer sister in the Cirio family, this variation enables the candles to be freely placed wherever they are needed. Eight to twelve points of light come from one ceiling plate and are long enough to cover large halls or stairways, creating various atmospheres within the same space.

Its design easily accommodates changing the shade to create different ambiances and arrangements from Sargadelos porcelain (lighting up with the warmth of an altar candle) to translucent opal glass or the opaque grace of brass.
