Floor Lamps

SANTA & COLE

Originally conceived to light the erstwhile central headquarters of FAD – a benchmark centre in Spain – the arrangement of these floor and table lamps strike a chord as an example of truly understood industrial craftsmanship by no means folkloric or mundane.

A solid cylinder oak structure, with four openings hollowed out lengthwise, leads to an almost cylinder white linen shade. The upper metal shaft can be adjusted in height and the striking cross-shaped base, exuding Miguel Milá's creation, is the same size as the lower circumference of the shade. Unadulterated simplicity without surrendering to pointless frills.
